The **2 Emme Clima** Metal Drip Tray is a versatile, all-in-one solution designed for quick installation and easy servicing. Its durable metal construction features a diamond design that promotes efficient water drainage for reliable performance. Built for convenience, it's a practical choice for any setup.

- Universal design suitable for all applications
- Slide-on tray allows quicker initial assembly
- Incorporates a diamond shape on the tray toward drain hole
- Below-unit installation allows servicing without removing A/C unit
- Tray can be installed above or below the unit
- Condensate waste fitting included

Please note the following when using the trays with the 2 Emme Clima applications:

- **Super Light Brackets** - Install only above the bracket
- **Industrial Brackets** - Install only below the bracket

Part No.	WxLxH (mm)	Weight (kg)
