

OP Drip Tray Range

Protect outdoor refrigeration and air conditioning units with a reliable, low-maintenance containment solution. Our compact stainless steel system integrates a collection tray (35 mm edge), a high-efficiency mechanical oil separator, and four mounting feet. It separates rainwater from hazardous substances—allowing water to drain freely while safely containing light liquids like ester oils. The result is a simple, durable solution that ensures environmental compliance with minimal maintenance.

Safety First
AuRü

KEY FEATURES:

- High-quality stainless steel collection tray
- Tray segments are connected by hollow screws in multi-part safety and retention systems
- Oil separator designed for small systems
- Allows integration of a high-performance heating block (HHB)
- System can be variably mounted on the C-feet and locking screws
- Suitable for floor or damping base mounting
- Compatible with wall bracket mounting

KIT INCLUDES:

- Stainless steel drip tray
- Integrated seperation sysem
- Mounting kit: 4x stainless steel C-Feet and fixing screws

Part No.	Model	Dimensions (H×W×L)	Retention capacity
100-00-1010	AuRü-ÖP-1	35 x 320 x 900 mm	approx. 1.2 litres
100-00-1020	AuRü-ÖP-2	35 x 400 x 950 mm	approx. 1.5 litres
100-00-1030	AuRü-ÖP-3	35 x 500 x 1150 mm	approx. 2.3 litres
100-00-1040	AuRü-ÖP-4	35 x 850 x 1140 mm	approx. 3.8 litres
100-00-1050	AuRü-ÖP-5	35 x 930 x 1140 mm	approx. 4.2 litres
100-00-1060	AuRü-ÖP-6	35 x 780 x 1500 mm	approx. 4.7 litres
100-00-1070	AuRü-ÖP-7	35 x 1200 x 1500 mm	approx. 5.4 litres
100-00-1080	AuRü-ÖP-8	35 x 850 x 1430 mm	approx. 4.9 litres
100-00-1090	AuRü-ÖP-9	35 x 590 x 1250 mm	approx. 3 litres
100-00-1100	AuRü-ÖP-10	35 x 850 x 1750 mm	approx. 5 litres
