

BLACKOUT

Hose Hauler Blackout

SERVICE TECH HOSE BAG

The Hose Hauler Blackout is a “blacked-out” version of the existing Hose Hauler with a few added features. It includes a “suitcase-like” expansion feature that increases internal capacity, allowing you to fit more hoses, store a refrigerant scale with your hoses and gear, or hold up to 100 feet of extension cord. Inside, a removable security strap keeps hoses or extension cords fastened and prevents them from unraveling.

The bag also features three removable zippered pouches—two corner pouches and one centre pouch—for storing tools and equipment. The flap includes a dual-zippered 2-in-1 pocket that opens from the top or bottom. On the outside, there is an added hanging hook for mounting the bag and a shoulder strap for easy transport. This is the ultimate bag for hoses, extension cords, and recovery or evacuation kits.

- Water/Oil Resistant Tarpaulin Interior for easy clean up
- “Hang-up” hook - accessible while open and closed
- Expansion feature to increase internal capacity
- Removable Internal Strap to secure hoses and cords and prevent unraveling
- Shoulder strap
