TR-LC

LARGE TOOL ROLL

The TR-LC is a highly functional, large modular tool roll designed for job sites and roadside repairs. It features a mountable design with a hanging hook to keep it off the ground and out of the mud. This large tool roll is easily carried with an ergonomic grip handle and a shoulder strap when rolled up, and two secondary handles for quick transport when unrolled.

- The TR-LC includes five removable storage pouches and rolls: three multi-coloured large bulk storage pouches (“RP-LCs”) designed to contain items while hanging; a wrench roll (“WR-LC”) for a full wrench set, and a socket roll (“SR-LC”) for a full socket set. Both the WR-LC and SR-LC also function as standalone rolls with external zippered pockets and carrying handles.
- The RP-LCs, WR-LC, and SR-LC utilise heavy duty Velcro to ensure a secure attachment and easy detachment on the inside of the TR-LC so that you can grab them and go as you need.

Description	Part No.
TR-LC Large Tool Roll	AX3710

Model specific specifications

Size mm – w/d/h	Rolled: 68x180x230 Unrolled: 368xN/A x737
Weight (empty)	2kg
Storage/pockets	35 Interior and exterior tool pockets
Max. Payload	15.9kg
Internal volume	n/a
