# SR-LC

## SOCKET ROLL

The SR-LC is a compact tool roll designed to store a full socket set, including socket wrenches and extensions. It features two rows of 15 elastic loops of varying sizes to hold sockets, with tubing rails to keep them secure, and two center rows of 5 elastic loops for wrenches and extensions. The side flaps fold inward to prevent items from falling out. Additional features include an external zippered compartment for small items, a carrying handle, and a Velcro loop for attachment to the TR-LC. The SR-LC functions as a stand alone tool roll and is compatible with the TR-LC.

- Accommodates both Metric (4mm up to 17mm) and SAE (5/32in up to 3/4in) sockets
- External Velcro loop for attaching to the inside of the TR-LC
- Adjustable dual-buckle fastening system
- Flaps along the perimeter that fold inward to prevent items from falling out
- External Velcro loop for attaching to the inside of the TR-LC

### Model specific specifications

Size mm – w/d/h	Rolled: 330x50x152 Unrolled: 330xN/A x165
Weight (empty)	0.4kg
Storage/pockets	2 rows of 15 elastic socket storage loops of various sizes 2 rails of tubing for added security of sockets when stored in the loop 2 center rows of 5 elastic loop for storing socket wrenches and extensions
Max. Payload	4.5kg
Internal volume	n/a

### Rugged materials & construction

Highly durable 600D polyester external construction; Water-resistant and wipeable internal construction; External carrying handle; External zippered pocket.

Description	Part No.
SR-LC Socket Roll	AX3711
