

JAV-1550
1/2" Increased bore size – faster and deeper vacuum

1/2" Turbo Flow

VACUUM AND CHARGING HOSE

Faster, Deeper Vacuum – The oversized 1/2" bore hose increases flow rate, allowing for deeper and quicker vacuum drastically reducing system evacuation time.

Universal Compatibility – Works with any vacuum pump that has a 3/8" connection for seamless integration into your workflow.

High-Pressure Ready – Designed to handle all high-pressure refrigerants without collapsing or permeating under vacuum pressure.

Optimized for All Refrigerants – Ensures efficient system charging and evacuation across standard HVAC refrigerants.
