

Hose Hanger

A3 A2L

The Hose Hanger is an innovative storage solution engineered to organise service hoses while helping to prevent contamination during transport and storage. By connecting hose fittings directly to the corresponding closed-end fittings on the hanger, valuable hoses remain protected, clean and ready for use.

Its industry-leading design accommodates multiple connection types within a single tool, providing compatibility with 1/4”, 3/8” and 1/2” hose fittings. Manufactured from aircraft-grade anodised aluminium, the Hose Hanger delivers exceptional durability and long service life in demanding working environments.

Description	Part No.
Hose Hanger	JAV-1620

Key Features & Benefits

- Organises hoses during storage and transport.
- Helps prevent contamination of hose fittings.
- Protects valuable service hoses.
- Compatible with 1/4”, 3/8” and 1/2” connections.
- Industry-leading multi-size design.
- Aircraft-grade aluminium construction.
- Durable anodised finish.
- Quick and simple hose storage.
- Improves workshop and van organisation.
- Built for long-term professional use.
