

Technical data sheet

Ice 'n' Clean®

Ice machine cleaner

Special Features

- Clears heavy limescale and slime deposits
- Colour indicator ensures product is completely flushed

Ice 'n' Clean® will effectively remove limescale and slime – which are common problems in ice machines – and will clean all surfaces. Limescale is formed by the insoluble calcium carbonate coating the ice-making elements. Newly formed ice sticks to the scale and this jams the machine. Slime then builds up, allowing contamination of the ice products. Slime can also give the ice a bad taste or odour.

PRODUCT SPECIFICATION

Name	Ice 'n' Clean
Product Code	S010209GB, S010169GB
Packing Quantity (ml, L)	12 x 1 Litre, 4 x 5 Litre
Packing Size (L x H x D cm)	36.5 x 25 x 27.5, 40 x 30 x 27
Shipping Weight (kg)	15.46, 24.98
Shipping Volume (m³)	0.0259, 0.0324
Soils	Scale, Bacteria, Mould, Fungus

Directions of use

Turn off refrigeration and leave pump in operation if possible. Drain machine and refill with fresh water. Add Ice 'n' Clean® to circulating water at a rate of about 1 litre: 15 litres water. Circulate for about 30 minutes. Brush cleaning solution onto scaled surfaces not contacted by the circulation. Extra-heavy scale may require a second dose of Ice 'n' Clean®. Colour indicator ensures product is completely flushed from the machine.

Drums and plastic parts may be cleaned by mixing 1 litre: 7.5 litres water in a plastic container and brushing solution onto scaled surfaces.

Store upright in a cool, dry place.

HB-30® is registered by NSF. When used correctly, HB-30® is safe to use in food preparation and storage areas.

Disposal

Product: Incineration on land

Container: Clean with water. Dispose of as normal industrial waste.

Do not reuse empty container.
